

Another fundamental aspect in the organization of the event was to establish a single point of reference (the Pizzomunno hotel in Vieste) around which to gravitate with daily rides in the different directions planned in the 3 days without having to move vehicles, personnel and luggage. The Pizzomunno Hotel is a beautiful 5-star hotel with a large car park, garden, private beach, swimming pool, restaurant, fitness that has made it possible to relax in the moments of break and to be able to carry out all the collateral activities of the event such as lunches, dinners, meetings and awards.

Friday 7 June, visit to the firefighters' museum in Manfredonia

The first ride took the group from Vieste to Manfredonia to visit the fire brigade museum with an overview of the means used, methods of intervention, uniforms, equipment and many other objects in the various eras from the beginning of the century to the modern era. A truly meritorious work due to the passion of a lifetime committed to creating a unique collection by the patron Michele Guerra.

Fire pump from early 1800s

On the way back from Manfredonia, a visit to the city center of Vieste was organized with the exhibition of the participating motorcycles on the square of Marina Piccola, highlighting the historical and technical characteristics of each bike.

Saturday 8 June view of the Umbra forest

The second ride was more challenging as it involved 3 steps:
1. regularity race with times taken at the start and back to the hotel
2. visit of the Gargano National Park and the Umbra Forest with lunch at the typical restaurant
3. exhibition of motorcycles in the city of Peschici and return to the hotel in Vieste for dinner
